

EASY DRAW Instruction – HOW TO USE

1. Set main camera to Orthographic

2. Drop either the DrawManager or the SlashLineManager prefab in your scene.

Done

Draw Manager allows you to draw on the screen with or without the line having collider. This is perfect for games which allows you player to draw for fun, or draw to solve a puzzle.

Slash Line Manager allow you to create a quick mouse or finger slash across the screen like fruit ninja.
